## LOOK TO US FOR YOUR DISPLAY NEEDS!

**KBW**  
**BannerFlex®**

The most durable banners  
in the industry deserve the  
most durable hardware!

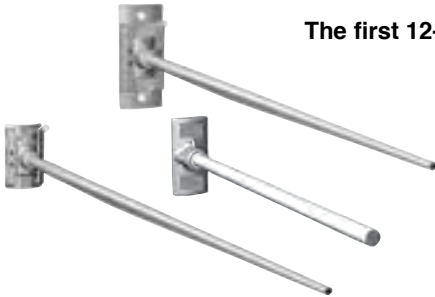

Since 1984, BannerFlex® has been the leader and innovator for light pole banner brackets. Visit [www.bannerflex.com](http://www.bannerflex.com) to see all the models and all the supporting information and data. No other company supports you like Consort! And no other hardware supports your banners like BannerFlex. Through constant research and development we've introduced:

- 1984 • Very first fiberglass-arm bracket
- 1988 • First adjustable and "canted" bracket
- 2003 • Revolutionary Airow® bracket (maximum wind reduction)
- 2004 • Unique, Metro® bracket (specifically for fluted poles)

**Airow**  
BannerFlex  
Premium Tapered Arm

And now, the new **RoundPro™** fiberglass arm for increased wind reduction on our standard hardware!

**The first 12-year warranty, wind tunnel tested to 100 mph**

Introducing the **RoundPro™** fiberglass arm. A new composition of fiberglass and resin for up to 23% more bending. If you don't have the Airow or the RoundPro, you're just resisting too much wind! Please see our revolutionary Airow bracket in the action video under "Resources" on BannerFlex.com.

**Messenger-RTR®**

Retractable Banner Stand

- Quick and easy setup
- Holds 33"x 86" graphics
- Silver finish
- Portable and lightweight

**Digital Printing –**  
Beginning 2020, Consort has digital printers with amazing capabilities:

1. Superb digital printing on vinyl media for exterior and interior banners.
2. State-of-the-art digital printing on all colors of Sunbrella® or Sunfield® marine acrylic.
3. Flatbed digital printing on virtually all solid substrates, including glass & metals

**The most remarkable news about our new equipment is that we are no longer "screen" printing our Sunbrella or Sunfield marine acrylic banners!**

Our entire large-format screen printing facility has been replaced by new technology that prints intense, vibrant inks onto Sunbrella or Sunfield. Prior to this new technology, all our marine acrylic banners were hand screen printed with plastisol inks, cured with big, hot dryers. No more! No more big, expensive screens that are required for every color and no more ink mixing!

**Messenger-X®**

Single Display Banner Stand

- Quick assembly
- Five stock widths - telescopes up to 94" high
- Black finish
- Displays single or double-sided graphics
- Portable and lightweight
